INVITATION: Malta Seminar, Friday 15th May 2009 at 8am

Let's work together

Malta, an island at the heart of the Mediterranean, offers exciting opportunities for business to expand and access new markets.

Prime location, trading traditions and excellent transport and communication links mean Malta acts as a gateway to economies that can appear daunting including the Middle East and North Africa.

With English as the language of business, Malta has already welcomed hundreds of foreign investment enterprises to the island in recent years. With highly-competitive taxation policies and cost structures, full EU membership, a skilled workforce and higher education sector responsive to the needs of business, it is easy to see why Malta has attracted international blue-chip companies in sectors as diverse as Pharma and Bio-tech, Informational Technology and Aviation as well as many more technical and service industries.

Come along and see what life in the heart of the Mediterranean can offer you and your business.

Venue: Ulster Reform Club, 4 Royal Avenue, Belfast, BT1 1AD

Date: Friday 15th May 2009

Arrival: 08:00am, Breakfast served at 08:30am
